

WAQAR UL HASSAN

Project Manager | Agile Delivery | Full-Stack Development Background

Lahore, Punjab, Pakistan • +92 300 0110620 • waqarulhassan3484@gmail.com
linkedin.com/in/waqar-ul-hassan786 • github.com/waqarulhassan786

PROFESSIONAL SUMMARY

Software engineer with 3+ years of hands-on experience delivering full-stack web applications, now focused on project management. Experienced across the complete software development life cycle (SDLC) — requirement gathering, task planning, development, testing, and delivery. Skilled at translating client requirements into clear technical tasks, coordinating between clients and development teams, and keeping work on schedule. A strong MERN-stack foundation supports realistic estimation of scope, effort, and risk, and credible communication with engineering teams.

CORE COMPETENCIES

Project Management: Project Planning & Scheduling, Agile / Scrum, Sprint & Task Planning, Requirement Gathering & Analysis, Stakeholder & Client Communication, Risk & Issue Tracking, Team Coordination, Progress Reporting & Documentation, Quality Assurance

Technical: MERN Stack (MongoDB, Express.js, React.js, Node.js), Next.js, TypeScript, JavaScript (ES6+), REST APIs, JWT & Role-Based Access Control, Tailwind CSS, Performance Optimization & Debugging

Tools: Git & GitHub, Postman, Jira / Trello, Microsoft Office & Google Workspace

PROFESSIONAL EXPERIENCE

MERN Stack Developer Jun 2024 – Present

Codings First — Bahawalpur, Pakistan

- Deliver scalable web applications end to end, contributing across the full development life cycle from requirement analysis through deployment and support.
- Translate client requirements into structured development tasks, estimate effort, and plan work to meet agreed timelines.
- Build MERN applications with authentication, role-based access control, CRUD modules, and REST APIs.
- Coordinate with clients and team members to clarify scope, report progress, and resolve blockers before they affect deadlines.
- Test, debug, and optimize performance before release to ensure quality delivery.

Full Stack Developer Apr 2023 – May 2024

Codes Thinker — Bahawalpur, Pakistan

- Developed and maintained full-stack web applications using the MERN stack, React.js, Next.js, and TypeScript.
- Developed REST APIs for frontend-backend integration, aligning interface requirements across the team.
- Broke features into milestones, tracked progress against deadlines, and flagged risks early.
- Prepared documentation and progress updates for team leads and clients.

PROJECTS

Car Rental Platform — MERN Stack Developer fleetfinesse.com

Full-stack car rental web application built on the MERN stack; contributed from requirements through deployment.

Hotel Booking Site — Backend Developer staging.simplihost.com

Backend development for a hotel booking platform, including REST APIs and data management.

E-commerce Website — Front-End Developer

Responsive e-commerce front end focused on usability and performance.

EDUCATION

BS Software Engineering CGPA: 3.5

The Islamia University of Bahawalpur — Bahawalpur, Pakistan
